Summary

As an engineering student, I have acquired different skills that allowed me to specialize in business intelligence and data science. Moreover, throughout my academic career, I have gained knowledge and experience while working on several projects and internships which have deepened my passion of data.

Work Experience

Engineering Internship PGS Intl. | Jul. 2024 – Sep. 2024

- Implemented, tested, and deployed a BI solution for a petroleum depot serving over 500 clients, and automated the process on the company's servers.
- Prepared and transformed data from 20 tables and scraped data using Talent, developed predictive algorithms, and created visualizations on 4 dashboards for different decision-makers at the depot using Power BI.

Business intelligence project for an oil depot PGS Intl. | Jan 2024 – June 2024

- Developed a website with decision-support dashboards for a petroleum depot managing 15 suppliers.
- Set objectives and identified key decision-makers, cleaned and transformed data, created dashboards, and predicted future trends and customer behavior by developing machine learning models using Python.

Community manager and web developer SDA Services | Jan 2022 – Jan 2024

- Created 4 websites and web applications for clients using Symfony and Angular frameworks.
- Developed marketing strategies and managed social media accounts.

Data analyst internship National Agricultural Bank | June 2023 – Aug 2023

- Collected and prepared data using Power BI.
- Analyzed and monitored credit insurance by creating dashboards in Power BI.

Education

Engineer's Degree Private Higher School Of Engineering & Technology | 2020 - present Specialized in ERP and BI

French High School Degree Groupe Scolaires René Descartes | 2015 - 2020 Baccalaureate in Science with high honors

Volunteering

Rotaract Amilcar Sidi Bou Said | 2020 - 2024

- Club president
- Head of Foundation committee
- Moderator
- Founding member and Head of public interest committee

Courswork

- Google Data Analytics
- Meetings management
- CCNA2
- Team work
- Sponsoring
- Introduction to CyberSecurity
